PLAY · EXPERIENCE · LEARN

„CHILDREN DO NOT PLAY TO LEARN. BUT THEY LEARN, BECAUSE THEY PLAY.“

You can count the seeds in an apple, but you can't count the apples from a seed. The same goes for the infinite potential of a child.

Children are our future. A well prepared learning environment will help children make a difference in the future.

WHAT WE BELIEVE

Children do not play to learn, but they learn because they play.

WHAT WE DO

We aim to work with global partners to create diversified inspiring learning environments that will empower children to be curious and creative.

Our business idea supports this vision by offering a modern range of materials with diversified solutions from different products categories.

WHAT WE OFFER

World Class Safety

Children's safety is our first priority. All our products meet, and more often, exceed the strictest international standards for quality and safety including: AS/NZS ISO8124, GB 6675, ASTM F963, EN71, and CCPSA.

Our products are not only recognized by well-known evaluation associations in early year education with global awards, but are also rewarded by the child's smile.

Working Together

We strive to work and grow together with our global partners and reach more children and families around the world with play-based learning.

Sustainably Produced Products

From product design and material selection to the manufacturing and packaging process, we strictly follow the "minimum ecological cost" principle.

We have acquired all mainstream certifications for manufacturing industry. The certifications cover:

- ISO9001, ISO14001, ISO45001
- ITEX (ICTI Ethical Toy Program)
- GSV (Global Security Verification)
- FSC™ (Forest Stewardship Council™)
- HIGG Facility Environmental Module

Affordable Products

We have our own factory, stable supply chains of raw materials, and strong logistics warehouses to ensure consistent manufacture and supply management. Thus, we offer our partners worldwide the most affordable products and services.

Index

The setting up of nurseries and kindergartens promotes autonomy. Children orient themselves in a space that offers suitable places for every moment of daily life: playing and activities, lunch, or rest.

- The furniture organizes the space.
- It completes the architecture of the building.
- It divides very large rooms into different areas.
- It creates places for different activities.
- It builds a network of learning opportunities and activities.

Furniture

CONCEPT AND GOALS

The new line of beleduc furniture for nurseries and kindergartens features a linear, essential, and minimalist design with the goal of creating a peaceful and bright environment that is welcoming to children.

The project places children at the centre, with furnishing that shapes the space where they move, live, play, and express themselves. The furniture serves as a foundation for games, experiences, and relationships, and should create space rather than make use of it.

A few essential colours coexist harmoniously within the space, where the new furnishing is ready to accept the addition of children's drawings, and constructions.

SOURCES OF INSPIRATION

Beleduc furniture is linear and modern, inspired by Italian humanistic culture, Scandinavian design, and Asian minimalism.

These solid and universal sources of inspiration are well-known and loved all over the world. This project has been guided by certain images that have pointed us in a new direction.

The new furniture line will follow these sources of inspiration and continue to grow, develop, and become more enriched.

DESIGN KEYWORDS

The design of beleduc furniture is guided by clear geometry, with horizontal lines, squares, and circles which serve as the basic element of each object. These elementary forms are easy to understand and convey a sense of order and serenity. They also provide a great background for more complex objects. By developing designs around elementary geometric shapes, we create versatile, flexible and welcoming spaces.

COLOUR PALETTE

Simplicity Lightness Harmony

Three particular colours- yellow, green and blue- serve as chromatic accents that can be found in some of our furniture pieces. We carefully select materials and colours to create a wide range of compositions.

DIVERSIFIED FURNITURE

Our school furniture is carefully crafted through observation of children and their activities in nurseries and kindergartens.

Our team of designers, educators, and craftsmen collaborate to reinterpret common objects in original ways and create new items that offer unique possibilities and ways of use.

INFINITE COMPOSITIONS

Our furnishings are modular elements designed to create spaces, much like the bricks in a wall, a structure made of wood, or the pieces of a mosaic. Simple, linear elements without decorations are used to create welcoming, rational, and elegant arrangements.

DIFFERENT LEARNING ENVIRONMENTS

The new range features a series of different pieces that are beautiful, practical and durable. These include shelving-cabinets, tables, chairs and cots. Beleduc furniture will introduce a unique and modern look to any high-quality learning environment.

HIGH QUALITY

Our products are made of sturdy plywood and feature an easy-to-clean melamine oak finish. We take safety and durability seriously, which is why all our products undergo rigorous testing in accredited laboratories to ensure they meet our high standards of safety and resistance.

TABLES

Highlights

The Doughnut Table

A unique table designed to stand out in any space!

Inspired by the shape of a doughnut, this table features a circular design with a hole in the centre, creating a playful and eye-catching look.

The hole can hold a tub, a potted plant, or even allow a child to stand in the centre.

Easy Assembly Tips

1. Screw a table leg into the circular section
2. Finish the rest three legs
3. Stand your table

CABINETS

The design of beleduc furniture is child-centered and directed.
 The cabinets divide a room into particular learning spaces, attracting children to explore, play and learn.
 It is believed that a child's driving sense of curiosity will foster an interest in learning, and succeed long term.

The second step is building the animal correctly, so children learn about concepts and associations like long-short and big-small. The wooden blocks are child-friendly illustrated and are fun to play with.

Magnet Game (Kids and animals of the world)
11190 (L195 W265 H40mm) 7.7x10.4x1.6inches

This Match & Mix magnetic toy shows animals and children from different continents. The template cards explain where the children in traditional clothing and their cute animal friends come from. The magnetic pieces can be assembled as shown on the cards or combined creatively.

Funny Four
18004 (L220 W220 H60mm) 8.7x8.7x2.4inches

What is the shape of the hippo? What is the shape of the lion? It is essential for children to learn the differences of the basic shapes. The Funny Four teach this haptically.

Stacky Tower
18015 (L280 W200 H80mm) 11x7.9x3.1inches

Solving puzzles differently! With the Stacky Tower children can not only sort, but also recognize shapes and build up a three dimensional tower. The friendly safari animals are a great help because of their colouring.

LogiPlay
21070 (L320 W225 H45mm) 12.6x8.9x1.8inches
 Combining logically means to find answers for different tasks. By looking at the explanation on each card the child understands how to solve the problem and fills in the correct coloured ball. After finishing one task card the card will be turned over and the child can auto-check his answers.

Golden Apple
22370 (L385 W385 H60mm) 15.2x15.2x2.4inches

According to the colour thrown, the players move their riders along the coloured fields to the meadow. There, they mount their horses and set off on the route along to the "Golden Apple".

Mecki & Co.
22355 (L385 W385 H60mm) 15.2x15.2x2.4inches

The players are filling their hedgehogs with spines, by rolling the dice of 3 or 6 dots. The player, whose hedgehog is the first to have all 30 spines on his back, is the winner of the game.

Splash
22615 (L225 W225 H70mm) 8.9x8.9x2.8inches

The animal friends in the Arctic are having loads of fun playing and all want to jump back into the water with a huge splash. Who will be the first to jump? Which way is the quickest? Only the player who can observe and concentrate the best can win. A game with simple rules for the youngest players to train first colour recognition and fine motor skills. "SPLASH - Let's go!"

QUAKI
22619 (L450 W120 H120mm) 17.7x4.7x4.7inches

There is a lot going on in the water lily pond! The players try to catch the flies with their frogs and be the first to catch as many flies as possible. This exciting and varied game requires a quick reaction and good memory skills. The players try to catch as many flies as possible and collect them on their own game mat. The aim of the game is to be the first to fill all the fly squares on your own small frog game mat.

Witches' Kitchen

22701 (L378 W275 H65mm) 14.9x10.8x2.6inches

The little potion brewing experts search under mushrooms for dots in the same colour as the colour that comes up on the dice. If the colour under the mushroom is the same as that shown by the thrown dice, the player may put the mushroom into his or her own cauldron. The first player to fill his or her cauldron with 7 mushrooms is the champion potion brewer.

Acrobatico

22870 (L320 W225 H45mm) 12.6x8.9x1.8inches

You'll find the mouse dancing on the bear's nose here! Raise the curtain for the animal acrobats: They have been training for a long time, but all the animals are running around like crazy with excitement. Can you help everyone find their partner amongst all the chaos? The time has come: Clear the ring for bear-y impressive tricks!

Wooden Dice

838153 (L60 W60 H60mm) 2.4x2.4x2.4inches

This wooden dice is made of solid wood, each individual side is printed with black dots for counting.

Read My Mind

22740 (L180 W110 H35mm) 7.1x4.3x1.4inches

Mit Beobachtungsgabe und geschickten Fragen Sachen erraten. Guess things with powers of observation and clever questions.

Weight Box

23608 (L220 W180 H70mm) 8.7x7.1x2.8inches

With the weight memo, children can find 2 weights of the same weight. Who can find the pairs?

Plastic Dice Pack of 100

838152 (L95 W95 H100mm) 3.7x3.7x3.9inches

This colorful dices pack comes with a bucket for storage, 100pcs of dices are included.

Tandem Boards

23614 (L540 W360 H110mm) 21.3x14.2x4.3inches

Encouragement of the basic ability to read and write by training hand-eye-coordination, fine motor skills and the ability to concentrate. Good for people with physical limitations.

TanGeo

24040 (L280 W275 H65mm) 11x10.8x2.6inches

The various magnetic wooden pieces can be arranged into new shapes through many different possible combinations. Derived from Chinese Tangram, countless new pictures can be created with just a few movements, whereby the template cards can be used for inspiration. By playing, children learn about geometric shapes and their relationships, and in doing so train their fine motor skills and ability to concentrate.

XXL Wobbling City

25581 (L460 W465 H100mm) 18.1x18.3x3.9inches

Wobbling City is an amusing balance and skill game! Build the colourful city alone or with your friends. Will you manage to balance it on the wobbling plate? The aim of the game is to put all the houses and trees on the wobbling plate without making them fall. The gameboard is double-sided and it allows different game variations as well as free play.

XXL Fishing Fever

25510 (L680 W280 H190mm)
26.8x11x7.5inches

A fun but tricky game of skill! The fishes are "caught" and stored on the corresponding stands by help of the fishing rods.

Dollhouse - XL Set, 44pcs

24235 (L900 W600 H734mm) 35.4x23.6x28.9inches

Move in right away and start decorating! The multi-floor house is ready for funny role-playing games. The house consists of six different rooms, movable stairs, a solar panel on the roof and a large playable outdoor area.

XXL Torreta

25512 (L385 W325 H95mm) 15.2x12.8x3.7inches

The children use either the colour dice or the dice with dots. Depending on the colour or number of dots that come up when the dice is thrown, the children build towers.

Quadrilla XXL Set, 256pcs

24210 (L510 W360 H260mm) 20.1x14.2x10.2inches

The Quadrilla marble run is a high-quality wooden toy, with many different building possibilities due to its modular structure which fosters creativity. It is the world's first marble run where marbles are rolling on horizontal tracks. The marbles gather momentum by rolling through the different holes in the connecting cubes. These cubes make the quadrilla exciting and versatile, since different openings at the bottom and to the left or right side guide each marble.

Cooking Essential + Vegetables, XL set

24237 (L520 W290 H390mm) 20.5x11.4x15.4inches

With the cooking essentials and vegetables set tasty eating is fun! Cut the vegetables, peel the potatoes and grate the cheese - this is how preparing healthy meals is fun! The vegetables are kept together by Velcro fasteners or magnets and can be cut up. The egg box contains 6 eggs - 3 hardboiled eggs and 3 fried eggs, so cooking is fun!

XXL Rondo Vario

25550 (L325 W285 H86mm) 12.8x11.2x3.4inches

Ready, thread, go! Whoever gets six pieces in the diced colour onto their caterpillar first wins.

XXL Witches' Kitchen

25520 (L650 W650 H75mm) 25.6x25.6x3inches

The little potion brewing experts search under mushrooms for dots in the same colour as the colour that comes up on the dice.

Cat - Cara & Mimi
40460 (H300mm) H11.8inches

Cats are little adventurers and love freedom. They can be timid or very affectionate, cuddly or very bold. The handpuppet cat is a very loving mother, who carries her baby protectively. The little kitten is a fingerpuppet. The white paws, the cute face with the pretty eyes and the quaint ears ensure that Cara and Mimi are the favourite handpuppets.

Kangaroo - Kanga & Juju
40450 (H300mm) H11.8inches

Kangaroo lady Kanga isn't by herself. No, she is bringing her baby Juju along in her pouch and both have beige, snugly fur made from smooth fleece. Kangaroos are fascinating animals and children love playing hide-and-seek with the finger puppet in the mother's pouch. One just has to love these two due to the detailed realisation.

XXL ACTIVITY PLUSH
42047 (L1300 W250mm) 51.2x9.8inches

Meet Mr. Bubbles - the perfect cuddle buddy and playmate for the little ones! With Mr. Bubbles, children can learn important lessons in a fun and playful way. And that's not all - This little guy is here to teach the children about ocean pollution and what we can do to combat it. With him, children can play a fun game where they feel different shapes and objects inside its stomach and decide what belongs and what doesn't. And when it's time to cuddle up, the Starfish Mr. Bubbles is the perfect companion for your little ones.

Toucan "Toni"
42060

Friendly Toni listens to the children's adventures, comforts them, cuddles and dances with them. He is the ideal tool for educators to make the invisible visible. Puppets promote non-verbal communication and make it easier for children to open up about themselves. Toni is also the perfect mascot and can brighten up every child's day. Children will love their new friend Toni. Skillfully using a string puppet takes some patience and practice. The toucan is very detailed and colourfully designed from high-quality materials for long-lasting playing fun.

TACCO

Empowering Creativity

Our Philosophy

At The Arts & Crafts Company (TACCO), we believe in the power of creativity to shape young minds.

That's why we've crafted the TACCO range—your ally in inspiring the imaginations of children and supporting the essential work of educators in early years learning environments.

Our Creation

Our journey began with a question: What tools do educators need to unlock the full creative potential of every child? Answering this led our seasoned R&D team to design innovative solutions tailored to the dynamic ways of a classroom's daily life.

With a commitment to affordability and quality, our dedicated supply chain professionals have brought the TACCO range to life, fostering creative play that engages and delights.

Our Future

The TACCO range is ever-expanding, much like the imaginations we aim to nurture. Our vision? To be your comprehensive source for arts & crafts essentials.

As we continue to grow, our promise will remain the same: to deliver the resources you need to kindle the flame of creativity in every child. We invite you to join us on this journey of creativity and learning. Stay tuned for our upcoming additions, to create a brighter future together.

Fröbel Gifts

FRÖBEL

When we think of the name Friedrich Froebel, we associate it first and foremost with the concept of the kindergarten. Secondly, we probably think of his world-famous play gifts. Froebel, kindergarten and play gifts probably form a conceptual chain of associations for many educators.

Because of this importance, beleduc has worked with a team of experts to develop two outstanding Froebel sets.

It was important to Froebel to support children's play with care and attention through language. In the vocabulary of the 21st century, his basic pedagogical approach would probably be best described by the phrase "interaction as a basic didactic principle". Another important aspect is the mathematical concept behind.

“ Current empirical studies impressively prove that playing with building blocks at pre-school age centrally promotes children's spatial imagination and that this spatial imagination is an important prerequisite for how difficult or how easy it is for them to think mathematically later on. ”

Dr. Gerhard Friedrich

Overview of specialist terms

The easiest way to understand the term "play gift" is that it refers to play materials that we give to children. These materials are mainly made of wood (ball, roller, cube, cuboid).

THE FROEBEL-SYMBOL

ball, roller, cube

FORM OF LIFE

The play materials can be used to recreate things from the children's everyday life.

FORM OF BEAUTY

When playing with the material, aesthetic or ornamental shapes, structures and patterns can be constructed.

FORM OF COGNITION

If the child deals with the play materials and finds direct mathematical connections, such as axis or rotation symmetries, or division rules, the material contributes to a learning process.

24302 Fröbel Set 1

Package Size: 410 x 310 x 140h mm

Product Introduction: According to Fröbel, a child's first toy is the ball. With play gift 1, the 6 woolen balls, the child's interest is inspired by its mobility. With the ball the child can find its own way into the world of movement and it can develop its own skills inspired by the instinct to imitate. The second gift is the best known of all, which is mainly because it contains a ball, a roller - today we speak of a cylinder - and a cube.

To make it easier for teachers all over the world, the Teacher Guide is available in 12 languages. Froebel Set 1 includes the Teacher Guide in the following languages: English, Simplified Chinese, Traditional Chinese, Korean, Japanese and Arabic.

You have chosen a high-quality product from beleduc. The play gifts and Teacher Guide were developed in cooperation with a team of experts.

24303 Fröbel Set 2

Package Size: 410 x 310 x 140h mm

Product Introduction: The term "play gift" means that the Fröbel gifts are play materials which we "give" to children. The construction sets contain various shapes that build on another in different levels of difficulty, from simple solids such as cubes to quarter cubes and triangular prisms. There are a total of five different building sets. These are generally designed to encourage the child to play, experiment and construct through their elementary forms. The play gifts 3 to 6 can be used to construct forms of life, forms of cognition and forms of beauty. In order to transfer the educational aspects from Fröbel's time into the 21st century, the children can use materials from today to complement creative play gifts. To make it easier for teachers all over the world, the Teacher Guide is available in 12 languages. Froebel Set 2 includes the Teacher Guide in the following languages: English, Simplified Chinese, Traditional Chinese, Korean, Japanese and Arabic.

Each booklet has the colour code of the respective gift.

Here you will find an overview of all the parts and a scheme how to put it back in the box.
