Hama

The original! Hama beads have been made in Denmark since 1971, and are well-loved worldwide. Hama fosters creativity, patience, and fun playtime once their designs are finished. The appeal of Hama spans an entire lifetime: children as young as 3 years can start with the Maxi range, and continue their passion as they grow older, creating more intricate designs as they build experience!

Hama is pleased to introduce Bio Beads: made from sugarcane! Just as versatile as original Hama beads, Bio Beads are carbon-neutral, can be recycled, are compatible with all Hama Midi pegboards, and come in 15 different colour arrangements.
