CEO Message

Play benefits every aspect of a child's development, boosting curiosity, driving creativity and promoting lifelong learning. At Hape, we seek to support child development through our educational toys that encourage open-ended play and facilitate opportunities for children to learn and grow. In 2024, we continued to create joyous and meaningful play experiences for children and families around the world.

Peter Handstein
Founder & CEO

Inspire and Educate

The opening of our first Hape Experiential Learning Centre in China this year marked an important milestone in our mission to inspire playful learning, and the centre's interactive exhibits and hands-on activities encourage children to explore STEAM concepts in a fun and exciting way. In the years to come, we will continue to expand our Hape Experiential Learning Centre to new locations in China, in order to engage more children with our playful learning experiences which are designed to bring hands-on fun and enjoyment to crucial disciplines like math and science.

Through play, we strive to encourage curiosity, spark creativity, and foster a passion for lifelong learning that impacts children all over the world.

Prioritising Customers' Needs

In 2024, we continued to invest in our customer experiences, taking further steps to diversify and optimise our marketing strategies. To achieve this, we developed our channel strategy, which allows us to more effectively cater to the specific needs of our customers. While this strategic approach will undoubtedly help to increase customer satisfaction and engagement, it will also help us to enhance our brand visibility.

One direct outcome of the realignment of Hape's core products through diversification, is our Hape Play Essentials line. This new product line consists of our core items, at a competitive price, aimed at generating high-volume sales with a lower profit margin. Such efforts will allow our partners to achieve their objectives, and in turn that will provide us with an opportunity to reach more children and families around the world with our play-based learning.

Important Steps Forward in our Sustainability Journey

Sustainability has been at Hape's core since our inception, and we are committed to creating a more sustainable future for children, families, and for society as a whole. In that regard, 2024 has been an important year for a sustainable company like Hape, as we officially released the first "Sustainability Report" for our largest production facility in Ningbo, China. We are excited to demonstrate the meaningful progress we have made in environmental, social and governance (ESG) aspects of our operations to our long-term partners. Looking forward to 2025, we are committed to the idea that, by taking actions and working together, we can build a better tomorrow for our future generations and for society as a whole.

Love play, learn.

Play is at the heart of everything we do. Children love to play and with our toys they gain valuable life skills. Because when children play with our toys they learn so much more about themselves and the world around them.

Quadrilla

Derived from the combination of two German words, "Quader" and "Rille", meaning "bricks" and "slots" respectively - which are also the main components of the game - Quadrilla's unique marble run system is "a lot like coding" (Wall Street Journal) and a perfect platform for STEAM education.

Role Play

Our Pretend Play toys are meticulously designed to simulate real-life situations. Here, children can take on various roles, experience different careers, and create their own adventures in their imaginary worlds. Engaging in these scenarios allows children to develop their imagination and creative thinking while learning social and emotional skills that build confidence when playing these different roles.

Hape Playland

A journey into Hape's retail solution

In the broad panorama of toys we want to stand out for our quality and attention to design, showing our range in new and inspiring ways.

The impression we want to give is:

Hape is playful, innovative, friendly, affordable, passionate and - more than anything - willing to make the world a playful place where children will never stop learning.

Flexibility and adaptability

Hape Playland has a flexible design based on regular grid systems that enables it to adapt to many different store layouts and dimensions.

One Hape Playland can go from a minimum recommended size of 5 sqm /54 sqft to areas as big as 50 sqm /540 sqft.

To get your own Hape Playland, please contact our local sales.

The following are some examples of different Hape Playland sizes.

The best result in a few simple steps

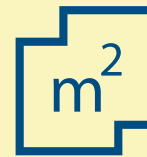

Key features

- **More interaction:** demos, play tables, and displays to boost the fun and interactions.
- **Immersive shopping experiences:** the attractive graphics and decorations will provide children a more immersive shopping experience.
- **More traffic:** thanks to its new fresh look that resembles a play area, Hape Playland will generate more and more traffic.

Please contact our local sales for more. Hape Playland Manual is available upon request.

- **Increase conversion rate:** by strongly communicating our passion and values, Hape Playland will increase the conversion rate.
- **Memorable experiences:** nothing makes parents happier than looking at their children having fun and learning.

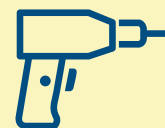

Identify the area for Hape Playland.

Choose the categories to sell and displays to use.

Design the layout and the area.

Implement and furnish the area.

Enjoy a new and exciting Hape Playland!

Brands

Over the past 38 years Hape has grown into a leading Educational Wood toy brand. To continue this growth we are introducing the following brands to expand our reach to new age groups, categories and seasonal products.

All brands will be available domestically, can be combined together and ship from same Wisconsin based location.

PolyM is a construction toy made using soft material under German workmanship. These round-edge bricks are not only super safe to little hands, but also hygienic and easy to maintain.

DO – U – PLAY Games are a 2024 launch that takes aim at the popular outdoor gaming market. With focus on games, we are launching product from \$24.99. This line is open for all customers across all channels. Product can be purchased domestically or via import.

Trelines targets active outdoor play consumers who love Ziplines, Swings and Outdoor apparatus. This product is sold in all active channels in our US marketplace and open for all customers. Product can be purchased both domestic & import.

Science Can is exclusively distributed in the US offline marketplace by Hape. This science-based STEAM focused product line helps to foster and develop that natural curiosity in the sciences and STEM/STEAM product needs.

ZZZMoon offers exciting stories not only to hear but also to see. The innovative bed-time devices combines audio-visual learning with relaxation and offer many fun and educational story adventures for children aged 3 to 6 years.

PolyM

PolyM® building bricks are produced under international standards of safety and are regularly tested by independent testing institutes. Originally built by a father – Anton Meyer, German engineer, and founder of PolyM® – for his beloved daughters, it is fitting that the PolyM® building bricks reach new generations with each passing decade.
